TOWN WARRANT**STATE OF NEW HAMPSHIRE**

*To the inhabitants of the Town of Henniker in the County of
Merrimack in said State, qualified to vote in Town Affairs:*
(L.S.)

You are hereby notified to meet at Cogswell High School Auditorium in said Henniker on Tuesday, the twelfth day of March, next, at nine of the clock in the Forenoon to act upon the following subjects:

Polls open at 9:00 a.m. and close at 8:00 p.m.

Town Meeting will be recessed for School Meeting.

The articles in the Warrant will be taken up at 8:00 p.m.

1. To choose all necessary Town Officers for the ensuing year.
2. To see if the Town will vote to adopt an ordinance for the Town of Henniker "Proposed Zoning Ordinance Town of Henniker 1968" said ordinance heretofore published by the Planning Board and posted in the Town Clerk's Office and Chag's Insurance Office.
3. To hear and act upon the reports of Town Officers, Library Trustees, Trustees of Trust Funds, and other Committees.
4. To raise and appropriate such sums of money as may be necessary to defray Town Charges for the ensuing year.
5. To see what sum of money the Town will vote to raise and appropriate for the repair of highways and bridges, and repair or purchase of machinery.

6. To see what action the Town will take in regard to Public Health and raise and appropriate money for the same.

7. To see what sum of money the Town will vote to raise and appropriate to defray the expenses of observing Memorial Day.

8. To see what sum of money the Town will vote to raise and appropriate for the support of Tucker Free Library.

9. To see what sum of money the Town will vote to raise and appropriate for maintenance of the Police Department.

10. To see what sum of money the Town will vote to raise and appropriate for maintenance of the Fire Department.

11. To see what sum of money the Town will vote to raise and appropriate for the purchase of a radar for the Police Department.

12. To see what sum of money the Town will vote to raise and appropriate for street lighting for the ensuing year.

13. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

14. To see what sum of money the Town will vote to raise and appropriate for State Aid Construction of Class V roads.

15. To see what sum of money the Town will vote to raise and appropriate for the Town Disposal Area.

16. To see what sum of money the Town will vote to raise and appropriate for Old Age Assistance.

17. To see what sum of money the Town will vote to raise and appropriate for the support of the Concord Hospital.

18. To see what sum of money the Town will vote to raise and appropriate for legal services.

19. To see what sum of money the Town will vote to raise and appropriate for the District Court.

20. To see what sum of money the Town will vote to raise and appropriate for Workmen's Compensation.

21. To see what sum of money the Town will vote to raise and appropriate for the support of the Henniker Community Center.

22. To see what sum of money the Town will vote to raise and appropriate to prevent the spread of White Pine Blister.

23. To see what sum of money the Town will vote to raise and appropriate for Civil Defense

24. To see what sum of money the Town will vote to raise and appropriate to defray the expenses of the Planning Board.

25. To see what sum of money the Town will vote to raise and appropriate for the observance of Henniker's Bicentennial.

26. To see if the Town will vote to have a complete re-appraisal of the Town made by the State Tax Commission, or a private firm, and raise and appropriate money for the same.

27. To see if the Town will vote to rescind a motion passed at the Town meeting of 1952 relative to the appointment of the Highway Agent. (By petition.)

28. To see if the Town will vote to raise and appropriate a sum of money for a Highway Equipment fund.

29. To see what sum of money the Town will vote to raise

and appropriate for the construction of parking facilities near the center of Town.

30. To see what sum of money the Town will vote to raise and appropriate for the replacement of the road grader.

31. To transact any other business that may properly come before this meeting.

Given under our hands and seal this 16th day of February, in the year of the Lord nineteen hundred and sixty-eight.

AUDITOR'S REPORT

We, the undersigned Auditors of the Town of Henniker, hereby certify that we have examined the books and accounts of the Selectmen, Town Clerk, Town Treasurer, Collector of Taxes, Agent for Memorial Day Appropriation, District Court, Treasurer of Tucker Free Library, Board of Trustees of Trust Funds including Securities as tabulated in the report, and deposits in Savings Banks and National Banks, Collector of Water Rents, Clerk and Treasurer of Water Commissioners, Park Board, also Community Center and Bicentennial Committee, and find the same correctly cast and properly vouched.

LESTER E. CONNOR,

ROBERT T. FRENCH,

ARTHUR S. HADLEY,

Auditors

HEALTH OFFICER'S REPORT

December 31, 1967

SELECTMEN:

Town of Henniker

Henniker, N. H.

Dear Sirs:

The Town of Henniker enjoyed reasonably good health throughout the year, with the exception of occasional illnesses in the viruses category, but free of epidemics of any proportion.

A larger number of complaints than usual were registered with the undersigned this year, and were investigated as to whether they were potential health hazards or not. If found to be such, the parties involved were notified that same must be corrected.

The bi-monthly water samples of the Cogswell Spring Water Works were taken into the State Board of Health Department, Concord, N. H. for testing. All were found to be exceedingly good.

Numerous places of public gatherings and public eating places within the township were inspected and were found to be satisfactory after minor corrections were made.

Respectfully submitted,

GEORGE M. PARMENTER, SR.,

Health Officer

Town of Henniker, N. H.

Cases disposed of by settlement or otherwise	3
Total civil cases disposed of during year	5
Cases founded on contracts, including actions on notes, debts or accounts	4
Cases of landlord and tenant actions	1

VERNON A. KNOWLTON, *Clerk*

DEPARTMENT OF POLICE

In the 1966 Police Report, the case pending regarding the Bridge Light is closed. The individual responsible was brought to justice.

The "Dogs" of our town and strays are a problem which is increasing and is difficult to deal with. This applies to the owners who let their dogs run at large and without collars. The N. H. Law specifically states that dogs are to wear collars and tags (license and rabies). The new dog Law RSA 466:31 II also prohibits dogs from running on the streets or other people's property.

C. H. Tucker, Town Clerk, sent all dog owners a copy of these laws. Read them carefully. Remember, a dog is considered a member of your family — know its whereabouts — the responsibility lies with its owner. Dogs running in the streets could cause serious vehicle and pedestrian accidents. Don't let it be your dog.

Drivers of vehicles who hit an animal (dog, horse, etc.) must stop, identify oneself, and try to find the owner of the animal. One who fails to comply is "Leaving the Scene of a Property Damage Accident".

The Board of Selectmen and the State of N. H. Highway Division looked over the very dangerous situation at the intersection of Route 114 south and Depot Street exit, and for the safety of the public, decided on the one-way street (Depot Street and part of Circle Street).

Again, I will bring to your attention the critical problem of town square parking. The businesses in town depend on a rotation of vehicles for shoppers. The few spaces should not be occupied by non-shoppers, namely: employees of businesses,

faculty and New England College students attending classes, and those who leave their cars all day and ride to work with someone else. Cooperation on the part of everyone could abate this problem.

The Department together with the Board of Selectmen and Attorney Harold W. Perkins of Henniker have just completed the revision of our Town Parking Ordinances. This will help our Police to better control parking.

The members of the Department rendered their services for the usual activities of the year — games, graduations, parades, town square parking lines, court sessions, meetings, suppers, alcohol seminar, funeral, dances, etc., but covered fewer accidents in 1967, while breaking and entering, property damage, assistance to other Police Departments, messages delivered, and dog complaints increased. Telephone calls increased, also. A large portion are for information, credit checking and messages for the District Court.

PROPOSED BUDGET FOR 1968

Wages	\$ 5,000.00
Telephone Coverage	300.00
Telephone Net	170.00
Dog Constable	300.00
Equipment	500.00
Supplies	250.00
Radio Maintenance	50.00
Insurance (State Police Radio)	130.00
Insurance (Policemen)	100.00
	<hr/>
	\$ 6,800.00

This is an increase of \$1,300.00 over 1967 due to weekly scheduled patrol during the year. Also, patrol during the summer months which up until last year was kept to a minimum.

The figure for wages does not cover many hours of work given freely by every member of the Police Department as a contribution to the town and not listed by them on their reports.

The Dog Constable figure shows an increase. Because of the new laws, more complaints are anticipated and procedures to execute the laws will constitute more hours.

Also, there is much needed equipment such as a typewriter, files, helmets, etc.

The Police Department has an article in the Town Warrant for a "Radar System", costing approximately \$1,200.00, which we feel will pay for itself over a period of time in traffic fines, and is, therefore, an investment rather than an expense.

Henniker streets are two-way and narrow and often crowded by children, bike riders and pedestrians. Excessive speeds on our streets are especially dangerous because of these factors. In order to clock speeders legally, police are required to follow a car for a specified distance, watching their own speedometers during this time. Obviously, this is often dangerous and frequently impossible on our streets. Therefore, many speeders are not apprehended.

The Radar System is an electronic device that determines the speed of a vehicle by beaming radio-frequency signals that are reflected back to the moving vehicle, and measure its speed by the time elapsed between transmission and reception of the signals. This system can be operated by stationary police cars which means that a policeman will not have to chase a speeding car through a crowded street, at great danger to all concerned.

FINANCIAL COMPARISON FOR
THE PAST THREE YEARS

Raised by Taxes ('65-'67)	\$5,220.00	\$5,520.00	\$5,500.00
Expended	4,627.33	4,093.82	5,446.38
	<hr/>	<hr/>	<hr/>
Unexpended (total)	592.67	426.18	53.62
Income	282.50	461.00	353.00
	<hr/>	<hr/>	<hr/>
Unexpended (yrly. total)	\$ 875.17	\$1,887.18	\$ 406.62

For the three years our Police Department turned over to the Town's General Fund an unexpended (yearly totals) of \$3,168.97, which helped to defray other costs.

It is with the assistance of our State Police, who are most cooperative and efficient, other Town Police Departments, the Henniker Fire Department, our Board of Selectmen, employees of the Henniker Pharmacy, and our townspeople that make it possible for us to do an effective job in giving the public 24-hour protection.

As Chief, I wish to personally thank Norm Parmenter for his time donated to the "Blue Phone". I, also, thank my fellow officers whose services and support make our "Blue System" work efficiently.

CALVIN L. TUCKER, SR.

REPORT OF TRUSTEES OF TUCKER FREE LIBRARY

The Tucker Free Library belongs to the people of Henniker and the job of its Board of Trustees is to see that it is more useful to the town each year. The library, the land on which it stands, the historical collection it contains, and much of the money which supports it were all gifts, and because of this we have asked for only \$1,000 each year from the town budget to help defray our expenses.

When the present building was erected, more than sixty years ago, it was designed so that its use and program could be increased as necessary, which is most unusual for a town our size. Among other potential facilities, the library contains a two-story space for a stack room which has not been completed, a large attic which is presently used only for dead storage, and three large rooms in the basement, one of which is now planned for a historical room and study center. As to the latter, space and facilities will be provided for regularly changed displays from our historical collection, but since we feel the room should be more than a museum we also wish it designed so as to be suitable for various town groups to use it for such interests as music, art, crafts, etc. Last year the town voted a part of the accumulated funds from the John Proctor and Family Trust Fund to be used toward the construction of this room, and the Trustees began a program of making library space more available for the young people of Henniker.

What was formerly the Historical Room was re-arranged as a Children's Room, and a Summer Reading Program and regular Story Hours were held. The Henniker schools were invited to make more use of the library facilities, and library hours were changed to make them more convenient for students.

One of the most complicated and time-consuming projects of the last few months has been the program of identifying and

listing all of the objects in our historical collection, since without this information such possessions are of only minimum value to us. Mr. and Mrs. Daniel Giffen, Director and Curator respectively of the New Hampshire Historical Society have given us invaluable help in this work and we are extremely fortunate for their interest and knowledge, which would not be available to us from any other source. Dr. William Mandrey has spent many hours in cleaning, identifying and cataloguing our valuable collection of coins and currency which is also now adequately insured and secured. One of the results of this program has been our discovery that our historical and numismatic collections are of much more economic value than we realized, and require the best possible care.

Another project has been started this year with the cooperation of our schools which we hope will be of great benefit to the town, the schools and the library. Our schools do not presently meet the requirements of the N. H. Board of Education as to a school library, and we hope to work out an arrangement through which the schools can make use of the library facilities in a way which will meet those requirements. Many details remain to be worked out in order to achieve success, such as the hours at which the library will be open for use by the school, the nature of the supervision of the library during that time, the selection and purchase of the necessary books, and perhaps the designation of one portion of the library to be used specifically by the school. The School Board, the school faculty and the library personnel have already begun work on this project, and all of us feel it is much more practical for the town to make this use of the town library which already exists at relatively small expense to the town rather than to try to duplicate library facilities in the school itself, which is immediately adjacent to the library.

The planning of the library trustees is based on the total anticipated use of the entire library, and not merely with con-

templated immediate plans, which means that we do not wish to do anything in undue haste. Rather than achieve instant results, we prefer to be sure that anything we do will be in keeping with the very high quality of the original plans for the library and will not later have to be removed or changed when the need for new uses develop. The present lighting of the library has been increased and improved from time to time but is not adequate in any parts of the library except those now used by the public. The present heating plant has been changed to some extent, but is basically much as it was when the library was built. Both books and historical objects should be protected by proper temperatures and humidity, and some of these items have suffered in the past sixty years because it was necessary to store them in parts of the library where conditions were not suitable for their preservation. Although we are eager to begin work on the historical room as soon as possible we want to be quite sure that none of the construction there would have to be changed later by necessary work on lighting and/or heating, which should possibly be done first.

As you will note in the report of our librarians, the use of the library increases each year, and this report of the Trustees cannot be complete without an expression of our appreciation to our librarians, to the Friends of the Library who have done so much work for the library, to our friendly and helpful patrons, and to the town itself.

DUANE SANBORN, *Chairman*

Trustees of Tucker Free Library

REPORT OF THE BICENTENNIAL COMMITTEE

Early last year the Selectmen appointed Dr. Francis Childs of Henniker and Hanover as Honorary Chairman of the Bicentennial Committee, and Mr. Lester Connor as General Chairman. The Selectmen and the Trustees of Tucker Free Library were asked to serve as an advisory group. Mrs. Alice Norton was appointed Secretary, and Selectman Gordon Hulbert Treasurer. One of the first actions of the Committee was to send a letter to each organization in town, outlining general plans and asking for further suggestions. Each organization was invited to appoint a representative who was invited to meet with the Committee for discussion and to indicate what part the various organizations wished to take in the Bicentennial. The organizations were Henniker Women's Club, Bear Hill Grange, Boy Scouts, Girl Scouts, Rainbow Girls, Henniker Congregational Church, Henniker Methodist Church, St. Theresa's Church, Senior Citizens, Henniker Firemen, Cancer Dressing Society, Mother's Club, Aurora Lodge 43 AF & AM, Woods Chapter #14 RAM, Odd Fellows, Rebekahs, Henecon Chapter of the Order of the Eastern Star, Friends of the Library, Old Timer's Club, Fish and Game Club, Cogswell Memorial High School, Henniker Elementary School, Henniker Kindergarten, New England College, American Legion, New England College Women's Guild, De Molay, Radio Club, High School Alumni Association, Parent Teacher's Group, Board of Trade, Community Center, Henniker Flying Club. Town officials were also invited to meet with the Committee, namely, Postmaster Edward Damour, Town Clerk C. H. Tucker, Chief of Police Calvin Tucker, Park Department Representative Merle Patenaude and Town Moderator James Doon.

After conferring with the New Hampshire Department of Resources and Economic Development, the dates of August 8 through August 11 were selected for our celebration and regis-

tered with the state, to avoid conflict with other towns holding similar events this year. Correspondence was held with various towns which have celebrated their bicentennials recently, or will do so in the near future, from which much valuable information has been received.

The Committee decided to provide three official souvenirs on its own behalf: a high fidelity phonograph record of a talk on the history of Henniker given at New England College by Dr. Francis Childs, wooden nickels, and a booklet. The material for the record was tape-recorded by Mr. Robert Jewell and the jacket of the record designed by him. The record was placed on sale in local stores in December of last year. Mr. Gordon Hulbert was placed in charge of wooden nickels. The booklet is planned for publication prior to the celebration.

The emblem for the Bicentennial is the original stone arch bridge of Henniker, of which a sketch was made for official use by Mrs. Hugh Smiley, Jr. Wooden signs advertising the bicentennial were also made by Mrs. Smiley and are being put up at various prominent spots in and around town.

Robert Sterling and Don Woodrow are sponsoring a set of commemorative coins in bronze and silver as a private venture, which may be ordered from them either singly or as a set.

Any individuals or merchants who wish to sell souvenirs during the Bicentennial are asked to register with the Committee and to secure a copy of the official emblem for such use.

Final plans for the four day Bicentennial will not be complete until organizations and individuals decide what projects they would like to sponsor, but a preliminary list includes a Fireman's Muster, a public barbecue, a Visiting Center where Senior Citizens will greet visitors, a dance, a High School Alumni Banquet, a band concert, and a parade which we hope will contain floats from all local organizations and businesses

and will also have a group of bands and antique cars.

We appreciate all of the help and cooperation we have received in planning this important event in our history and we hope all of you who read this will help make the Bicentennial of The Only Henniker on Earth the best Bicentennial our state has ever seen. Suggestion boxes are posted in stores downtown, our meetings are open to the public, we are eager for your suggestions, and we hope everyone in town will take part in the celebration. Please get in touch with any member of the Committee as soon as possible and tell us what you will do to light one more birthday candle for Henniker.

LESTER E. CONNOR,

General Chairman

**ANNUAL REPORT OF THE ACTIVITIES AND
FINANCES OF YOUR
HENNIKER COMMUNITY CENTER**

Activities sponsored by the Community Center during the past year have been curtailed due to outside competition and lack of help. The teenage dances, held on Saturday nights dropped from 40 or 50 to 4 in the past year, thereby reducing the Center's income substantially. Major improvements to the plant and additions to our Little League field were not possible due to this drop of income. The necessary voluntary labor required to carry out these projects was also not available.

During the winter months, the Men's basketball team competed against teams from Milford, Goffstown, New Boston, Weare and Manchester. The team is back under the cage for another season and your attendance and support would be appreciated. Games with teams from Deering, Hillsboro-Antrim and Wilton have been added to the schedule.

Our Center boys teams under the expert coaching of Joe Clement had a very successful year against teams from Hopkinton, Boscawen, Penacook and Chichester. The Junior team swept the title and the Senior team played an action-packed battle in the League's final playoff. The boys will be trying for a clean sweep again this year and you are invited to attend these games to support these deserving teams.

During the spring and summer, the Center fielded three baseball teams playing against teams from Weare, Bow, New Boston, Hopkinton and Warner. The Junior team won the title in their League.

The Center also helped to support the Halloween party for the Grade School children and a bowling league for the Junior High students, held during November. The kindergarten and nursery schools continued to utilize our facilities during the past year. Troop 76 of the Boy Scouts hold their weekly meetings at the Center also.

The lack of enthusiasm to assist in carrying out some of our past fund raising programs and loss of income from dances will make the Center more dependent upon the Town's appropriation and other donations to maintain the plant and to continue the activities listed above.

The funds raised and expended over the past year to provide these programs are broken down as follows:

Receipts

ANNUAL REPORT OF THE HENNIKER PLANNING BOARD

Again this year regular meetings were held on the thrid Tuesday of each month except July. These are open meetings and anyone interested is invited to attend.

January and February meetings were taken up by discussion and changes in the proposed zoning ordinance and map. At Town Meeting a ballot was taken and two hundred and seventy seven votes counted. The ordinance failed to pass by fifty three votes. This Board feels that this is an indication that we should submit the ordinance again this year. We have been aided in informing the townspeople by a citizens committee in recent months.

March, April, and May were meetings where junk cars and parking possibilities were discussed. In regard to junk cars it was proposed to fill in holes in a few places about town. An idea for parking cars along the frontage of Community Park was surveyed and submitted to the Board of Selectmen. A discussion on evaluation was also included. The future of zoning was also talked over.

In the fall a new proposal on parking areas was discussed. The area behind the Engine House and the present area behind Buxton's could be combined and graded. An area in the rear of the Aucoin Block and beside the river was also discussed. A group from New England College is working on a parking proposal at the present time. A Planning Board float to be entered in the Bicentennial parade was also discussed.

The Citizens Committee on zoning met with the Board. The ordinance was changed in regards to lot sizes and clearances, and some parts eliminated, and the wording clarified to make it more acceptable to the town. The map has been printed and is available to townspeople. It has been proposed that the Board prepare an overall plan for the future development of the Town.

Citizens are urged to support zoning as an important aid to everyone to promote the most orderly development in our surroundings.

In the not too distant future the Sewer Project will come up for action. The Board endorses the project already submitted and hopes the Town will support it.

ADOLPHUS HOLTON, *Secretary*

ANNUAL REPORT OF TOWN NURSE

General visiting service from January 1, 1967 through December 31, 1967.

2,021 visits made which included bedside care, injections, dressings, instruction and follow-up.

There were many other duties, such as taking patients to doctor's office, accompanying patients in ambulance, assisting at blood drawing here and in Hillsboro, doing school census, assisting Dr. Brown with physical examinations at the schools, and making a daily visit to schools.

During the winter months, we always have the colds and virus, but this winter we seem to have had much more than usual.

Respectfully submitted,

MARY A. MAILLETTE, R.N.

Henniker Shool District

SCHOOL WARRANT

*To the Inhabitants of the School District in the Town of
Henniker qualified to vote in district affairs:*

You are hereby notified to meet at the Cogswell School Auditorium in said district on Tuesday, the 12th day of March 1968, at one o'clock in the afternoon to act upon the following subjects:

1. To choose by non-partisan ballot the following school district officials with the polls to open at 1:00 P.M. and close at 8:00 P.M.

- A. Moderator — ensuing year.
- B. Clerk — ensuing year.
- C. Treasurer — ensuing year.
- D. School Board member for the ensuing three years.

Article II — to be acted on at 7:00 P.M.

2. To hear the reports of agents, auditors, committees and officers chosen and to take any action relating thereto.

3. To choose agents, auditors, and committees in relation to any subject embraced in the Warrant.

4. To see what sum of money the district will vote to raise and appropriate for the support of schools, for payment of salaries for school district officials and agents and for the payment of statutory obligations of the district.

5. To see if the district will vote to authorize the School Board to make application for, and accept on behalf of the district, any and all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire for the school year 1968-69.

6. To see what sum the district will raise and appropriate as a deficiency appropriation for the school year 1967-68; said sum to be paid to the school district on or before June 15, 1968.

7. To see if the district will raise and appropriate the sum of one thousand dollars as a contingency fund for the 1968-69 school year.

8. To transact any other business that may legally come before said meeting.

Given under our hands this 9th day of February 1968 at said Henniker.

WALTER K. ROBINSON,

MERLE R. PATENAUDE,

EDWARD J. HATLACK,

School Board

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Members of the School Board of the Henniker School District:

The following staff are employed for the year 1967-1968:

<i>Teacher and Subject</i>	<i>Training</i>	<i>Year of Grad.</i>	<i>Salary</i>
Mr. Raymond Bissonnette Principal	St. Anselm's College	1950	\$9,500
Miss Therese Brosseau French and English	Rivier College	1965	5,200
Miss Mary Decato Business Education	Plymouth State Col.	1965	5,200
Mr. Ronald Elliott Industrial Arts	Keene State Col.	1961	6,500
Mrs. Carol Hamilton Physical Education	Springfield College	1959	1,400
Mrs. Janice Hawkins Home Economics	Simmonds College	1946	5,600
Mrs. Elizabeth Lovejoy Art	U. N. H.	1959	1,400
Mrs. Elaine Nordholm Science	Keene State College	1949	5,500
Mr. Terry Paul English and Social Studies	N. E. C.	1966	5,100
Mrs. Frances Roux English and Library	Notre Dame College	1965	5,200
Mr. Robert Scully English and Social Studies	St. Anselm's College	1958	6,600
Mrs. Marion Shay Math and Science	Keene State College	1959	5,900
Mr. Walter Sidney Social Studies	Plymouth State Col.	1964	5,200
Mrs. Janet Wick Math and Guidance	Belknap College	1966	5,500

REPORT OF THE HIGH SCHOOL PRINCIPAL

Learning and getting an education should not merely be accumulating facts and figures in order to pass a test. The basic concepts of education are to introduce each of our children to the various forms of knowledge and to give them the fundamentals of each so that they may have some idea of what they wish to make of their lives. One of the aims of the staff and administration is to provide stimulus so that our pupils will want to continue their education. As adults, we fully realize that we are giving our children an opportunity which years ago was only available to a select few.

In 1967 the staff and I have tried to place emphasis in three directions: curriculum, appearance of the school plant and adding depth to our Audio Visual Department. In the area of curriculum we have initiated more remedial reading classes, up-dated our scheduling, improved our guidance facilities, increased our invitations for guest speakers, freed a teacher from class work to devote two periods for library work, and have attempted to improve articulation in curriculum between the elementary and high school.

In general school plant appearance some of the improvements were: adding bulletin boards, giving a fresh coat of paint to several classrooms, installing new fluorescent lights, and adding new furniture in our library.

In the Audio Visual Department the staff and I felt that we should increase the showing of films to allow our pupils to view places and things that would be impossible to bring into the class room. We have also intensified our use of the tape recorder, overhead and film strip projectors. These improvements are just a brief sampling of the procedures that have been inaugurated to better serve our youths.

The aim of stimulating pupils to continue their education is reflecting the fulfillment of our goals. In 1967 the graduating class numbered 22 of which 7 graduates enrolled at a four year university or college, 4 entered a two year technical or business college, 1 enrolled in a post graduate school, 1 entered the armed forces and the remaining graduates entered various fields of employment.

The staff is to be congratulated for their hard work and continued spirit of cooperation. We extend an open door to you to visit our school facilities.

Sincerely,

RAYMOND O. BISSONNETTE,

Principal

SUPERINTENDENT'S MESSAGE

The nature of my report over the past few years has changed to a considerable extent from reporting past events to an attempt to inform the public of changes to be expected at the three governmental levels as they pertained to education. In this, my fourteenth report to some of the districts in the Union and my first to Hopkinton and Henniker, it is my intention to present for your consideration some new thinking in financial support theory and the impending growth of relatively new educational practices.

For some time I have contended that the New Hampshire Foundation Aid formula was not a good one because it was based on real estate determining the wealth of the community. This was probably good thinking fifty or sixty years ago, but today personal wealth and income would be a more valid criteria. However, the State of New Hampshire with its antiquated tax structure has no alternative but to place the burden of continually rising school cost on the real estate owner. There is some question in my mind as to the local communities ability to continue to meet the financial demands for public school education. It would appear obvious that we are fast reaching a point where committees are going to establish a wills tax for educational purposes and say to the school boards, "This is the amount of money you will get; as the tax base increases, so will your income, but you will have to operate within this amount regardless of what it does to your program." Such drastic action will not appeal to many, but now comes Finis E. Englemen, one of the most experienced and respected educators in the country, with a relative new theory for financing public schools in the United States. He says:

Public education in the United States is being crippled and pauperized by a philosophy long since obsolete — and growing

more so every day. This philosophy says: Public education should be financed primarily by local taxation, with supplementary aid from the State and token assistance from the federal government.

Wealth fled the grasp of the local tax collector. Old tax structures, old sources of revenue became inadequate, unfair and outmoded.

He proposed a completely different hypothesis from which, at first blush, you will probably reject with horror. It is this: "The federal government should assume primary responsibility for providing public school revenues, with local and State sources providing supplementary and categorical aid."

The responsibility for education will remain at its present source, the difference being that the federal government, with its tax receipts growing as does the gross national product, will distribute a portion of its tax money where the children go to school.

Such a possibility makes sense when one views the following facts: In 1940 only \$4.9 billion was collected in Washington. By 1961, however, the sum has risen to \$77.5 billion, or nearly 16 times the amount 21 years before. By 1963 it had again jumped to \$86.8 billion. This is why such a possibility makes sense: with no tax increase, nearly \$5 billion in new money has been realized annually.

Such thinking is something to become excited about and at this point, the only possibility, that I am aware of, that will provide real estate tax relief.

I don't believe it is generally recognized the extent that change is taking place in education today. Following is an attempt to explain some of these changes that you may be facing.

1. The growing militancy of teachers is just getting off the ground in New Hampshire. In the next few years you will be astounded by the requests from this group. This really should not come as a surprise to you because the salaries which are being offered to these college graduates has been falling farther and farther behind those who choose to enter industry. The teachers have begged their cause for a long time and are now turning to union tactics to satisfy their desires. New Hampshire teachers have read of the success of the city teachers in their endeavors last fall and you will soon be receiving their message "Loud and Clear".

2. A few short years ago (1962 to be exact) the implementation of the Secondary School Standards raised the eyebrows of many citizens when it required a school library in every secondary school in the State. In 1966 the new. "Elementary Guidelines for New Hampshire", recommended a library for every elementary school. Most districts are hard to work trying to build up these facilities and now we find ourselves hit with new thinking of this area. It will no longer be a library but an Instructional Materials Center. Perhaps you don't have much in the way of equipment along these lines at the present, but in the next few years the requests for such will be substantial. What is it all about? Just this: Our electronics wizzards have come up with some teaching machines such as the opaque projector, the overhead projector, several kinds of reading machines including micro-film readers and others too numerous to mention. These machines have merit and are extremely helpful teacher's aids. The cost of the machines will be substantial but the procurement of film, tapes, transparencies and the like will tend to be a sizable budget item. However, this is progress and we must keep up with it.

The merging of some of our electronic companies with textbook publishing companies was not done merely to diversify the products of any particular company. Both groups could visualize the possibility of developing some learning techniques

that had not been contemplated before. A few instruments have been produced and are in the trial period right now and it will be very interesting indeed to see their contribution to the Instructional Materials Center a few years from now.

3. Last February, at Atlantic City, I made a little speech at a banquet given by the Milton Bradley Company for present and former New Hampshire Superintendents. In it, I made the remark that this was a "red letter" day for the company inasmuch as its stock had reached a new high of 23 $\frac{5}{8}$ that day. Today that same stock was quoted at 58 on the New York Stock Exchange and it is rumored that there will soon be a 2 for 1 split. This phenomenal growth is no accident. This company has always been the largest manufacturer of educational games and is now reaping its reward for its leadership in the field. Educators are beginning to find that by employing the use of these games that they are able to motivate pupils with whom they had had a difficult time by using traditional teaching methods. Some of these games are simple and inexpensive, some are sophisticated and costly. The idea has caught on and more manufacturers are entering the field. It will be interesting, five years from now to see what impact games will have in the total instructional program. Do not become disturbed when you visit school and find this teaching technique being employed to a considerable extent — you can be assured that learning is taking place.

It was naturally a great disappointment to me too that the various cooperative programs were rejected by the voters in the various districts because I sincerely feel that the merits of the small educational units no longer exist. However decisions have been made and it is assured that the efforts of this office will be to provide the very best of educational opportunities under the existing organizational structure.

Respectfully submitted,

NORMAN R. HARTFIEL,
Superintendent of Schools

ASSISTANT SUPERINTENDENT'S MESSAGE

Keeping a school system in step with the times is the most perplexing problem facing many communities today. Because of our rapidly expanding knowledge of how children learn, the development of new and sometime more efficient learning materials and the ever increasing body of knowledge available to us, every school system has become confronted with the need to make some rather vital school decisions. Involved in the task of translating all of this business of change into a practical school program, at a reasonable cost, that will fulfill the community's responsibility to its young people. This is a rather monumental concern. It calls upon those of us working in the schools to constantly investigate the new developments in education in relation to their value in themselves and to our school program. It calls for greater school and community cooperation in exploring and developing the means to keep the school system up to date and effective. And, indeed, the most important is the challenge placed upon us to provide for each child the opportunity for an education that will hold him in good stead for whatever his needs may be no matter where he may eventually reside.

In keeping with the theme in the first paragraph, many of our activities both present and future have been directed towards strengthening and improving the educational opportunity for your children. Listed and described below are some of the activities we feel are leading us towards the above goal.

CURRICULUM DEVELOPMENT AND COORDINATION — PROJECT C A P E

The basis of a good portion of the school program is the curriculum. It is the sum total of all the experience which we hope to provide the child while in school. If we are to make these experiences meaningful and lasting then it is absolutely

imperative that we strive to keep our curriculum up to date. We are working at this in two ways. One has been through the principals working with their teachers by departments and grades to discuss mutual problems and to work to develop programs that do the things we expect of them.

The second, and our major effort in this area, will be the development of detailed curriculum guides that will lay out the entire program in a subject area from grade one through grade twelve. What we are after is to make learning a continuous process from the time a child enters school until the time he graduates. We will strive not only for subject matter, but will also work to achieve closer coordination among teachers, grade levels and schools in a program that will work for common goals, utilize uniform teaching methods, realize that children do not all learn at the same rate of speed and will call for teachers at one level to know what the child has had at the level preceding. This is an ambitious project. It will call for the employment of teachers to work in an intensive manner during a six weeks session in the summer writing such a guide. Each succeeding summer it is hoped, will be devoted to a different area of the curriculum so that over a period of time we will have covered the entire curriculum. Included will be plans to put these guides to work, to check on their usefulness and to keep them up to date. At the same time the guides will encourage initiative and flexibility on the part of the teacher in using them.

After many meetings and work sessions with the principals of the schools in Henniker, Hillsboro-Deering and Hopkinton the initial phases this project have taken shape. Since the world seems to thrive on abbreviations, our project has assumed the name CAPE (Curriculum Articulation for Progress in Education) which should cover the subject quite well. CAPE is a locally initiated and controlled program, and is developed for the benefit of your children.

As with any undertaking of this nature it cost money. We are requesting the financial support of each school district in this endeavor. This is one of the most positive ways we know of to tie together in a common effort all parts of our school system. Your support will help provide the incentive for achieving successful completion of this project.

IN-SERVICE EDUCATION

As an integral part of our overall plan to improve the educational opportunities for all students a number of programs have been presented or are in the planning stage. Through joint Elementary-High School Faculty Meetings such topics are marking, course objectives, psychological needs of children and discussions with reading consultants have been held. Future plans include curriculum review sessions and workshops in reading, math and the disadvantaged child. The intent of these programs is to bring to our teachers the opportunity to explore new ideas with their colleagues at other levels, to participate in an exchange of ideas and to make available things that might be of some value in the classroom.

Closely related to this is the plan to offer college extension courses in the area. Although our first effort was not overly successful, it is felt that with more planning we will be able to provide some practical courses for our teachers and others who may have an interest.

CLASSROOM SUPERVISION

As is the case with curriculum and in-service education, working with teachers in classroom instruction is a means to improving the quality of education. It is our thought that through a good program of classroom supervision we can do much in assisting our teachers in their efforts in the classroom. Obviously, no amount of curriculum planning or in-service

work is going to mean much if it is not used in our work with students.

In a cooperative effort with the school principals we are embarking on a program that will call for increased classroom visitations and provide for a closer working relationship with our teachers. Hopefully, we will arrive at a point where the old image of supervision (sometimes called "snooping") can be replaced with the feeling that it is a sincere attempt to be of greater service to them.

FEDERAL PROGRAMS

Because of the availability of federal funds we have been able to purchase materials and provide services that heretofore either came out of district funds or were not available at all.

Through Title III of the National Defense Education Act we have purchased audio-visual equipment, and various other items for use in nearly all aspects of our program.

Through Title II of the Elementary-Secondary Education Act we have been able to add books and other resource materials to our libraries.

Title I is now providing a remedial reading program in Henniker, Speech Therapy in Bennington and Hopkinton, and will support Summer School Programs in reading and math for Hopkinton, Bennington and Hillsboro-Deering. There is little doubt that each program has contributed immensely to our education opportunities.

Even though we feel that much of what we are doing will help keep up with present day demands, we must avoid the pitfall of complacency and self satisfaction. Any action we take for our schools now must be viewed not only in terms of purely local situations or the satisfaction of an immediate need, but

must take into strict account its implications for the future. Already we see these ideas rapidly approaching:

Many of our physical facilities lack the flexibility for new instructional methods that will no doubt become a by-word in the very near future.

Our libraries, rather than serve simply as a depository for books, will take on a new look. Students will be using many other sources to find information. Research materials will also be in the form of tapes, recordings, films, film-strips, micro-films and even video tape.

A great premium will be placed upon new types of grouping with the idea of chronological age as a determinant for grade placement being seriously questioned. As a result we are now hearing things like developmental placement, school readiness, non-grading, team teaching and learning and large group, small group and independent study.

It is being questioned whether or not the magic number of class size is really so magical. Actually the situation and subject matter are a more logical approach to the class size problem than simply some arbitrary numbers.

Our knowledge of how a child learns, is causing us to wonder a little bit about our teaching methods. And, really, it is necessary to good learning that every class meet 250 minutes per week? Is a 180 day school year adequate not only for instructional purposes but also to allow time for the staff to engage in research and development programs?

This is merely scratching the surface. If we add to this special education, computerized instruction, problems of federal, state and local support of schools, finance transportation, year round schools, adult education, vocational education, and teach-

ing militancy, it almost becomes overwhelming the role your schools must play. Yet, if we are sincere about our desire to provide good schools then we are at least obligated to explore in some depth all aspects of these ideas, for not to do so seems to be denying the things we profess.

The future of education is both exciting and challenging. If we can relate satisfactorily the roles of various government levels, provide adequate financing, make teaching an attractive profession and engender community support and trust in the efforts of the school system then we will at long last have arrived at the day where your schools can make you justly proud of them.

With your support and cooperation that day need not be too far off.
